RE: Cultural Resource Assessment Request
Public Notice Number PN-SPH-197
Routine Maintenance Dredging of the AIWW and IWW
(South Amelia River, Sawpit Creek and Sisters Creek)
Disposal Areas DU-2 (Northeast Black Hammock Island),
D/A-C (West Central Black Hammock Island), or beach and
DU-8 (Moody Marine)
Nassau County, Florida

Dear Mr. DiChiara:

Based on additional information provided by Janice Adams of the Corps of Engineers in a phone conversation with Robin Jackson of this office on May 9th, 1995, it is our understanding that sites 8DU3 and 8DU7495 do not fall within either of the disposal areas in the above referenced projects. We therefore wish to rescind our earlier letter of April 28, 1995 expressing concern over the possible location of these two sites within the project areas.

If you have any questions concerning our comments, please do not hesitate to contact us. Your interest in protecting Florida's historic properties is appreciated.

Sincerely,

George W. Percy

I received a copy of SHPO's 28 Apr 95 letter commenting on disposal areas at northeast Black Hammock, West Central Black Hammock, Moody Marine, and the beach. Both Northeast and West Central need to be clarified in our response to them.

Because this originated in your office, you should probably draft the response. I will help if requested.

SUMMARY

Returned her 0905 17 Feb 95 phone call

Q: She wanted to know what type of material was going into the site.

A: I told her material dredged from the waterway

She thought maybe the operation was going to be a landfill
She lives on Shark Rd

SUMMARY

received it Feb 14 - They are late and realize the site is already permitted. Archeological surveys were done in 1992 by SHPO - I still have disposal area sites are already constructed on site.

Sites are in the area of construction. She will send map.

Recognizing that they are late, ^{with respect to P.N.} but they will write letter and send map anyway.

She will call back May 9 Tuesday. Laurie Kammerer (her supervisor)
